June 2022

Letter #6

Dear Westbank Members,

Summer is coming this month and with it comes the start of hurricane season. I hope you all have your plan in place – staying or evacuation, you need a plan. There is a section at the end of the bulletin with information on preparing for and weathering storms.

We won't have a meeting in June, so enjoy your time off with family and friends.

After the meeting in May, I asked our newest member, Arvella Lesnak, about what we need to do to keep her interested and engaged. That started quite a conversation! Arvella is full of questions and ideas on how we can increase our membership and continue being relevant in the energy industry. Maybe we should be making presentations at trade schools or local community colleges like Nunez or Delgado.

“Relevance” is something we can still provide. Having interesting industry speakers at least four times every year, we can continue to be relevant and bring in a new generation entering the energy and allied industries. We can continue to provide broad-based energy industry information. We can continue to build a cross-functional knowledge base. We can continue to offer education with the Certification Program. We can also continue to develop peer connections and community service pride. We ARE still relevant. We need to toot our own horn and make more effort

Are there any other ideas that you have? Please share them with Susan Miller, our Membership Chairman. ADDC is struggling to regain membership numbers that support running the Association. Student members could very well be one of the answers to our situation.

Let's start working on promoting the club and ADDC as a relevant organization that can lead to “Greater Knowledge – Greater Service” not just for the club but for the industries and communities we serve.

Judi Adams

**DESK & DERRICK CLUB OF THE WESTBANK
MEMBERSHIP MEETING MINUTES
MAY 26, 2022**

President Judi Adams welcomed everyone to the May 2022 meeting of the Desk and Derrick Club of the Westbank, at the Red Maple Restaurant, and called the meeting to order at 6:00 p.m. A quorum was present. Grace Bankston led the invocation and pledge of allegiance.

President Adams reported on May and June birthdays; members with health problems; ADDC and Southeast Region News; and Minutes of April meeting filed

Following dinner, Glenda Gaither reported on correspondence. Angie Duplessis presented the March and April Treasurer's Reports. The reports will be filed for audit. Angie also reported that Tax-Exempt forms have been submitted and Susan Miller completed the 2021 Audit Report.

President Adams recognized past club presidents Dawn Goode and Bonnie Wall and 2019 Region Director Evelyn McCurley-Ingram with a "pearl" brooch, unable to attend in April.

President Adams presented the proposed amendment to Club Bylaws regarding Article VI Board of Directors Term of Office and Vacancies, submitted by the Bylaws/Handbook Committee. Members voted unanimously to accept the amendment to change from Secretary and Treasurer to Secretary/Treasurer. Changes to the club bylaws and officer responsibilities will be made to reflect the amendment.

Elaine Lesnak, General Arrangements, reported that we had 19 members in attendance; no meals are owed.

President Adams reported that membership is 34; deadline for guests and new members to be approved is July 20th.

Angie Duplessis, Program/IAN, reported that speakers Brent Duet and David St. Marie with Coastal Engineering Solutions are rescheduled for July.

President Adams reported that Scholarship Committee is preparing for Bunco on August 6th. They are also passing a donation sheet for supplies. Dottie Ancona has tickets for sale.

Program presentation was a Region Meeting recap with members who attended giving highlights of the meeting; President Adams gave a summary of the meeting.

President Adams reported that we have no June meeting and the July meeting will be held at the Red Maple on July 27th; Elaine Lesnak will send out the meeting notice.

Dottie Ancona won \$45 in the 50:50 drawing.

There being no further business, the meeting was adjourned at 7:43 p.m.

What's happening with the Westbank Club?

Secretary—Theresa Adams

The May meeting minutes are printed in the bulletin . If there are any corrections, please let me know.

Treasurer—Pam Lauckner

The Treasurer's report was emailed to members. All tax-exempt forms have been sent as required.

AIMEE: Region Awards of Merit winners were: 2nd—Best Large Bulletin; 2nd—Best Industry Article; 1st—Best Desk and Derrick Article; 3rd—Best President's Letter; 1st—Best Industry Program; and 1st (tie) - Best Industry Photograph

General Arrangements—Elaine Lesnak, Chairman

We have no meeting in June. Elaine will send out the notice for our July 27th meeting. We will meet at the Red Maple Restaurant.

Membership—Susan Miller, Chairman

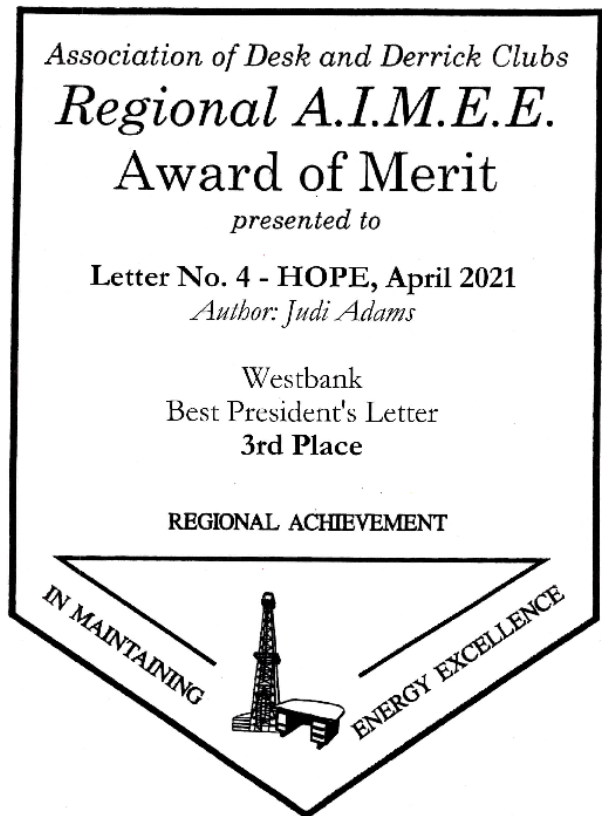

We have 34 members. Be sure to notify Susan by July 20th to get any new members or guests approved at the July Board meeting. Our meetings are open to guests with approval.

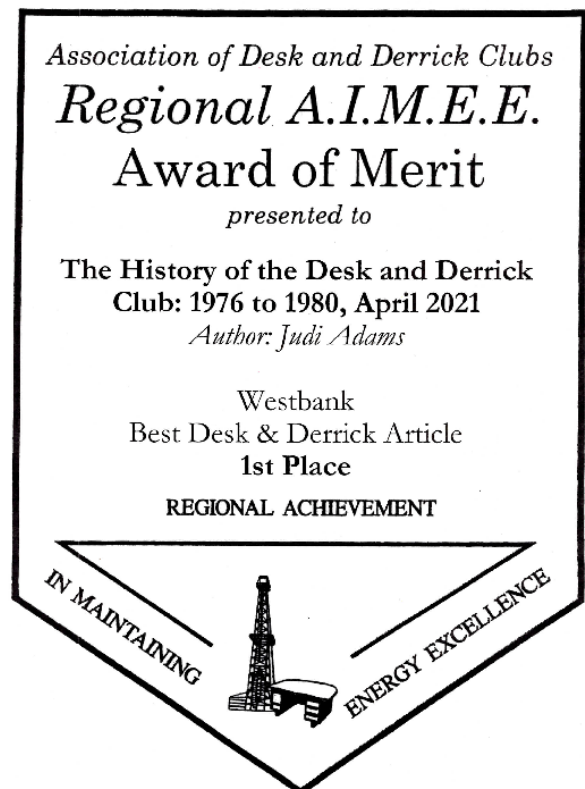

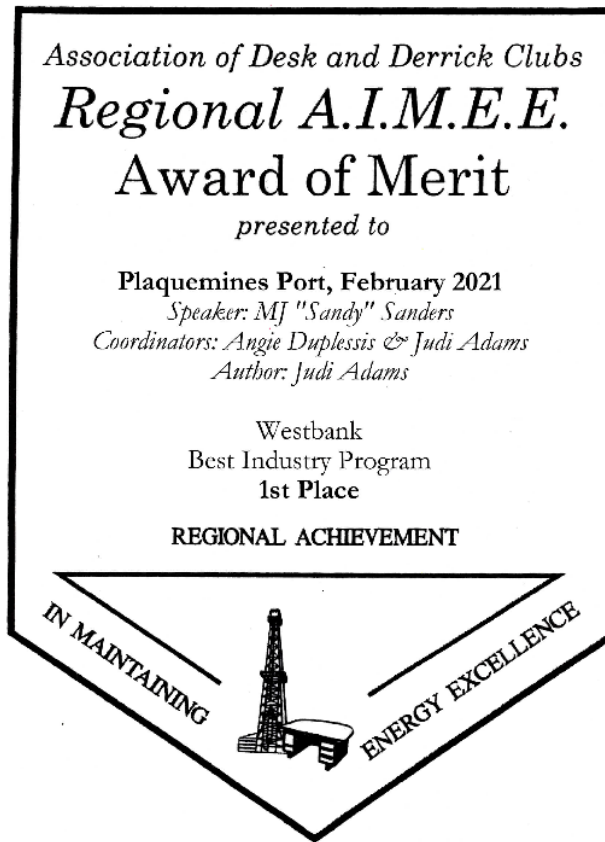

Scholarship—Bonnie Wall

BUNCO is scheduled for August 6, 2022. The committee has new sign-up sheets for donations.

Community Service—Angie Duplessis

Susan Miller will start collecting for Thanksgiving donations at St. Joseph Apartments. Bonnie Wall is not collecting any more Cards for Soldiers this year. Angie will collect toys for Christmas.

Cajun! Food Tours

DATE: SATURDAY, AUGUST 6, 2022

DOORS OPEN: 5:30 P.M.

GAMES BEGIN: 6:30 P.M.

Food served before games begin

Menu: Spaghetti Dinner, salad, bread, dessert, soft drinks, tea, coffee

Due to safety guidelines, meals will be served at the table and players will NOT change tables after rounds of Bunco are played.

PLACE: IMMACULATA K.C. HALL

566 AVENUE D - MARRERO, LA.

PRICE: \$20.00 ADVANCE PURCHASE ONLY

Contact Susan Miller for ticket information.

Email: smiller7451@yahoo.com

***All proceeds benefit the
Desk and Derrick Club of the
Westbank Scholarship Fund***

Westbank Desk and Derrick Club Bunco Donation List

Plan for 70 attendees		
Item(s)	Quantity	Name
Bags of meatballs (150 apps)	3 bags	
#10 Spaghetti	6 packs	
Hunt's Spaghetti Sauce (Sam's)	4 gal cans	
Creole Seasonings	4 packs	
Ground Meat	1 pack (L)	
Sweet Basil (chopped)	1 pack	
Garlic (chopped)	1 pack	
Rolls (30 count)	3 packs	
Lettuce	3 bags	Contact Gaylen Guillory (email: Gaylen.guillory@gmail.com) to sign up for donations
Italian dressing	1 container	
Butter packets (individual)		
Drinks	cans/plastic bottles only	
Coke	36 cans	
Diet Coke	24 cans	
Water (bottled)	3 cases (24-48 ea)	
Sprite	12 cans	
Diet Sprite	6 cans	
Desserts	Must be individually wrapped (such as Little Debbie)	
Swiss Rolls	2 doz	
Muffins	2 doz	
Brownies	4 doz	
Cookies	4 doz	
Cash Donations

June, 2022

To the wonderful members of the Southeast Region,

Welcome to Summertime!! For those of us in the South, it arrives with mixed emotions, glad to have the kiddos home (but challenging to find things for them to do), grateful for beautiful sunny days (but not enjoying the HEAT so much) and the ever loving backyard barbecues, swimming parties, etc. However, it is also the start of Hurricane Season and while we are always mindful and feel prepared, it is also a great time to double check your hurricane emergency kit! Replace batteries in flashlights and radios, replace any perishable items, etc. It is always better to prepare for the worst and hope for the best!

June is also election season for your 2023 ADDC Board of Directors! If you have ever considered stepping up, now is the time! Applications for Board of Director positions are due by June 17, 2022, so get to prepping!! It has always been a dream of mine to continue climbing the ladder, but it would never be possible without the support of all of YOU! So we shall see at Convention how it works out!

During the last Board meeting, the Board discussed an issue that has arisen in regards to photographs displayed on Facebook pages for Desk and Derrick Clubs. Copyright infringement has been claimed in connection with a picture posted to a public forum (if your FB page is not private). The picture was taken from the internet, but no credit was provided as to the source of the photograph. PLEASE make sure that the photos that are posted to your local FB page are NOT copyrighted and always confirm you have permission to post. Additionally making your FB page private will help and always posting pictures you KNOW are allowed will keep you out of the spotlight. Also a gentle reminder for disbanded clubs, PLEASE REMOVE YOUR FB PAGES OR MAKE THEM A CLOSED GROUP. If you have any questions on copyright infringement, please let me know and I will be happy to pass it along to those much more knowledgeable!

Hope each of you are making plans to attend the 2022 ADDC Convention in Washington, PA September 21-25, 2022 at the DoubleTree by Hilton Hotel Pittsburgh Meadow Lands, 340 Racetrack Rd, Washington PA 15301! The Registration package should be forthcoming shortly and certainly hoping to see all you there!

Until next time,

"One small positive thought can change your whole day." Zig Ziglar

Kathy Martin

June 2022

Happy June!

Over the last couple of years, it seems our organization has been hit with some pretty hefty fines when it comes to copyright infringement of photo's.

In copyright law, there are a lot of different types of works, including paintings, photographs, illustrations, musical compositions, sound recordings, computer programs, books, poems, blog posts, movies, architectural works, plays, and so much more!

An example of the issue at hand is folks are copying pictures found on the internet and using them in newsletters, social media, etc. Unless you have purchased the copyright license or received direct approval from the owner this is copyright infringement and can be subject to hefty fines.

Is it possible to use a copyright-protected work without infringing?

Yes, in some circumstances, it is possible to use a copyright-protected work without infringing the owner's copyright. For more about this, you may wish to learn about fair use. It is important to note that your content can be removed in response to a claim of copyright infringement, even if you have...

- Given credit to the copyright owner
- Refrained from monetizing the infringing content
- Charged for a copy of the content in question
- Noticed similar content that appear elsewhere on the internet
- Purchased the content including a hard or digital copy
- Recorded the content yourself from TV, a movie theater, or the radio
- Copied the content yourself from a textbook, a movie poster or photograph
- Stated that "no copyright infringement is intended"

<https://support.google.com/legal/answer/3463239?hl=en>

The best rule of thumb is to only use photos you have received direct permission to use or have purchased the license to use it. It is in your clubs' best interest to go back through your social media platforms, newsletters and anything that has been posted on a public platform and verify the content won't get you in trouble with copyright infringement laws.

Prayers and Blessings!
Philana Thompson

ADDC FOUNDATION Regional Verbal Report 2022

In 1987 the Association of Desk and Derrick Clubs created the ADDC Foundation to assist the association, its members, and others in the energy industries to develop educational projects and programs. The funding for these projects comes from Desk and Derrick Clubs and members, companies, corporations, non-profits and interested individuals. The foundation is a non-profit, tax exempt 501(c)(3) organization, and as such, donations are tax deductible.

We are pleased to report that through your contributions to the foundation, grants have been sent to the following:

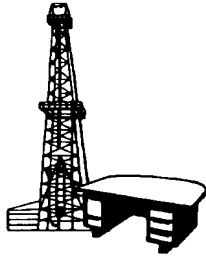

1. Allow \$1000 to cover costs of electricity, carpet and padding for trade shows and expos.
2. One regional grant was distributed this year. The Southeast Region took advantage of funding for both the meeting and certification program provided by the Foundation.
3. The Trustees approved up to \$1500 to underwrite the cost for the Symposium being held at this convention.

Since its founding, the ADDC Foundation has received over \$125,000 in contributions and has distributed over \$95,000 in grants and gifts to clubs, regions and other educational entities. The trustees voted to invest some of the Foundation funds into an annuity at the annual meeting last year. The invested funds did not do as well as in 2016; and thus, we met with Jackson Insurance rep this week and at our trustees' meeting on Thursday, we determined we needed to diversify this investment from strictly investing in bonds to include some mutual funds. This will give our funds more flexibility and allow for growth in mutual when bonds decline; and vice versa.

Serving as trustees for 2022 are: Christina Forth, Shelly Hildebrant, Jamie Gilmore, Audry Metford, Sheryl Minear (Secretary), Linda Rodgers (Vice Chair), Ada Weeks (Treasurer) and I am the current chairman. We are currently looking for additional trustees, as 7 of the 8 trustees are completing their terms at the end of this year. Please reach out to any of the trustees if you or someone you know would like to join the Foundation.

The Foundation is here to support worthwhile educational projects, so please send us your ideas and requests for consideration. And, as always, we thank you for your continued support.

May 31, 2022

Dear ADDC members,

The Desk and Derrick Educational Trust (ET) has a golden opportunity for ADDC members as we have a Trustee opening! ET is a great place to serve your organization, whose main purpose is to award scholarships to deserving second year college students from the United States and Canada. ET has awarded over half a million dollars in scholarships since its inception. That is awesome!

Requirements of a Trustee for ET are to accept a 5-year term and be a member in good standing of a Desk and Derrick Club. That's all...a volunteer willing to serve and give a little of their time.

Qualifications:

- Participate in the scoring of all Scholarship applicants in April/May. You will get to see just how hard our applicants are working to better themselves with our scholarships to help buy books and/or pay for their tuition. These students plan to graduate and work in our great industry. We are helping them succeed and grow!
- An annual Trustee Board meeting will be held at each of the annual ADDC Conventions. Trustees are encouraged to attend (in person or via electronic means).

If you are interested in joining the ET team, please email, text, or call me at any of the above numbers with a short resume about yourself. We would love to have you aboard the Educational Trust.

I hope to hear from several members inquiring about the Educational Trust. One Trustee rotates off each year.

God Bless America!
Be Blessed and Be a Blessing.

Diana Walker

ET Chair

HYDROGEN

Hydrogen is a secondary source of energy. It stores and transports energy produced from other resources (fossil fuels, water and biomass). It is a clean-burning fuel, and when combined with oxygen in a fuel cell, hydrogen produces heat and electricity with only water vapor as a by-product. Hydrogen can be made directly from fossil fuels or biomass.

It is the simplest element. Each atom of hydrogen has only one proton. Hydrogen is also the most abundant element in the universe. Hydrogen occurs naturally on earth only in compound form with other elements in liquids, gases or solids.

Natural gas is currently the primary source of hydrogen production, accounting for around 75% of the annual global dedicated hydrogen production of around 70 million tonnes. This accounts for about 6% of global natural gas use.

Hydrogen can enable renewables to provide an even greater contribution. It has the potential to help with variable output from renewables, like solar photovoltaics (PV) and wind, whose availability is not always well matched with demand. Hydrogen is one of the leading options for storing energy from renewables and looks promising to be a lowest-cost option for storing electricity over days, weeks or even months. Hydrogen and hydrogen-based fuels can transport energy from renewables over long distances – from regions with abundant solar and wind resources, such as Australia or Latin America, to energy-hungry cities thousands of kilometres away.

History

1839 - William Grove Invents the "gas battery". the first fuel cell

1889 - Charles Langer and Ludwig Mond develop Grove's invention and name the fuel cell

1950s - General Electric invents the proton exchange membrane fuel cell

1960s - NASA first uses fuel cells in space missions

1970s - The oil crisis prompts the development of alternative energy technologies

1980s - US Navy uses fuel cells in submarines

1990s - Large stationary fuel cells are developed for commercial and industrial locations

1999 - Europe's first public commercial hydrogen fuel station for cars and trucks opened for business in Hamburg, Germany

2009 - Residential fuel cell micro-CHP units become commercially available in Japan. Thousands of portable fuel cell battery chargers are sold

Uses and Demand

Hydrogen use is currently dominated by industry, oil refining, ammonia production, methanol production and steel production. Hydrogen is predominately supplied using fossil fuels, so there is significant potential for emissions reductions from clean hydrogen.

Transportation

The interest in hydrogen as a transportation fuel is based on its potential for production and use in fuel cells for high efficiency, zero-emission electric vehicles. A fuel cell is two to three times more efficient than an internal combustion engine running on gasoline. Hydrogen use in vehicles is a major focus of fuel cell research and development. Hydrogen and oxygen have therefore been used as rocket fuel for decades, not because of a benefit to the environment but because the full weight of the fuel is ignited.

Several vehicle manufacturers have begun making light-duty hydrogen fuel cell electric vehicles available in select regions where there is access to hydrogen fueling stations. The global fuel cell electric vehicle (FCEV) stock reached 11,200 units at the end of 2018, with sales of around 4,000 in that year (80% more than in 2017).

China's presence in FCEVs expanded significantly in 2018, with up to 2 000 small trucks produced. However, as these vehicles wait for the corresponding refueling infrastructure, just 400 were registered for road use in 2018.

Electricity

Hydrogen fuel cells produce electricity by combining hydrogen and oxygen atoms. This combination results in an electrical current. Many different types of fuel cells are available for a wide range of applications. Small fuel cells can power laptop computers, cell phones, and military applications. Large fuel cells can provide electricity for emergency power in buildings and in remote areas that are not connected to electric power grids. Hydrogen use in vehicles is a major focus of fuel cell research and development.

Environmental Impact

Like electricity, hydrogen is an energy carrier that can be produced from various feedstocks. Although hydrogen is a clean-burning energy source, when burned it only produces electricity and water. These feedstocks and production methods should be considered when evaluating hydrogen emissions.

The greenhouse gas intensity (and other environmental impacts) of hydrogen production depends on the sources and processes through which the hydrogen is derived. It can be extracted from water using electrolysis, using power from renewable solar or wind, nuclear energy, or fossil energy. It can be extracted from renewable biomass or coal using high temperature gasification. It can be derived from renewable biogas, renewable ethanol or methanol, or fossil natural gas. Most hydrogen is derived from fossil natural gas, emitting fossil carbon dioxide as a by-product.

Mediterranean Pasta Salad

Prep
20 MIN

Total
20 MIN

Servings
6

Ingredients

- 1 package (9 oz) refrigerated rainbow three-cheese tortellini
- 8 oz fresh asparagus spears, trimmed, cut into 2-inch pieces
- 2/3 cup roasted red bell peppers (from a jar), cut into 1-inch pieces
- 2 oz pepper Jack cheese, cut into 1/4-inch cubes (about 1/2 cup)
- 1 can (14 oz) Progresso™ artichoke hearts, drained, quartered
- 18 grape tomatoes
- 18 pitted kalamata olives
- 4 thin slices prosciutto (about 2 oz), cut into strips
- 2 tablespoons chopped fresh basil leaves
- 6 tablespoons reduced-fat balsamic vinaigrette dressing

Steps

- 1 Cook tortellini as directed on package, omitting salt and oil, and adding asparagus during last minute of cooking time; drain. Rinse with cold water to cool; drain.
- 2 In large bowl, toss remaining ingredients. Add tortellini and asparagus; toss gently.
