Members,

April and the 2023 SE Region Meeting have come and gone. I understand that Missy and Margie had an excellent time despite not winning at bunko.

Congratulations to our AIMEE WINNERS – Sheryl Cole, 1ST Place Large Bulletin; Missy Carroll, 2ND Place, February President's Letter; Laverne Broussard, 3RD Place Best Industry Article (My First Day In The Oil Patch); and, Laverne Broussard, 2ND Place Best Desk And Derrick Article (What D&D Means To Me).

Also, congratulations to members reaching milestones of membership – Amy Hollenshead, 15 years; Arlys Milan, 15 years; and, Margie Steed, 10 Years.

A big thank you to Margie Steed for stepping in as delegate after my emergency appendectomy just days before we were to leave for Gretna. The surgery went well even though the surgeon looked like he might have been all of fifteen. I've seen him twice since the operation and have been impressed with him both times – and he was very good natured when I threatened to hit him if he kept pressing on my stomach.

Thank you, Margie, for decorating the tables for me in April.

This month, we celebrate our industry by recognizing our advisors - past, honorary, and active. I'm proud to announce that all current advisors are continuing to serve this next year. These men and women have been awesome with their support – helping us get speakers for monthly meetings, sending us new members, and supporting all our fund-raising events. We would be lost without them!

In addition, we will be recognizing and awarding scholarships to outstanding college juniors and seniors majoring in areas that will enable them to work in the energy industry. This year we will be granting 5 scholarships to the following students for a total of \$12,000.00.

- 1) Jace Peloquin is from Lake Charles, LA and is completing his junior year at Louisiana Tech University with a GPA of 3.892. Jace is a presidential scholarship recipient, and a member of the honors program and the dean's list (maintaining a 3.5 GPA each semester since enrolling at the university). He is working toward a Bachelor of Science in mechanical engineering degree with a minor in computer science and Spanish. Jace is active in campus mechanical engineering activities. We have awarded him a Phyllis B. Powell Scholarship of \$3,000.00.*
- 2) Sonny Reed is completing his junior year with 142 hours and a 3.587 GPA at Louisiana Tech University. He is a presidential scholarship winner and a member of the honors program and the dean's list. He has maintained a 3.5 GPA each semester since entering the university. Sonny is seeking a Bachelor of Science in electrical engineering degree and desires to work in communications, power, or controls in the petroleum industry. The Club awarded Sonny a scholarship of \$3,000.00.*

- 3) *Audry Shank is also attending Louisiana Tech University and completing her junior year with 106 hours and a GPA of 3.468. She is active in campus activities affiliated with engineering and the Louisiana Tech powerlifting team. She is majoring in chemical engineering and participates in internships each summer. She hopes to work in any field of engineering. Audry was awarded a scholarship of \$2,000.00.*
- 4) *Skyler McAffry is completing her junior year at Louisiana Tech University with a 3.27 GPA and 119 hours. She has been a president's list and a dean's list member each semester, has been part owner of a monogramming business since 2017 and has worked as a teaching assistant at LA Tech. She interned in Pine Bluff, AR and is active in campus electrical engineering activities. She is goal driven, well-rounded young woman. Skyler is from McGehee, AR and is majoring in electrical engineering, desiring to be employed to use her skills to help expand the industry. Skyler was awarded a \$2,000.00 scholarship.*
- 5) *Lindsey Miller is completing his junior year at Louisiana Tech with 114 hours and a 3.125 GPA. He has held internships in DeRidder and Dry Creek since entering college. He has earned skills with solid works and mathcad, basic dye penetration, and basic ultrasonic testing. He is proficient in shielding metal arc, and welding, and gas tungsten arc welding. Lindsey is majoring in electrical engineering and desires to further his education and skills in the electrical and mechanical fields. Lindsey was awarded a \$2,000 scholarship.*

Congratulations to all 5 winners. With students such as these entering the work force, how can our industry not prosper!

Don't forget our community service project this month. We will be collecting handkerchiefs and diabetic socks to be delivered to a local veteran's home. I plan to bring a card to the meeting so that any who wish to do so may add their personal words of thank you to our veterans.

I know it's only the 5th month of the year, but I'd like to take this opportunity to review our year so far. January got off to a slow start due to poor weather, but we were able to fulfill our first community service project of collecting donations for Parish Paws Animal Rescue Center. Thank you to Bobbie Trust for delivering those items.

Our March "RRDD Quiz Bowl" was a great success. Everyone who participated had a great time, and we hope to repeat the event in the future. In addition, our field trip to the Arkansas Crater of Diamonds and the Wegner Crystal Mine was a fun trip for all who attended.

Our annual RRDD Clay Shoot was a great success, adding \$8,700 to our finances. Half will be assigned to our general fund, and the remainder will be transferred to our savings account to fund scholarships and our essay contest. Thank you again to all who participated. We look forward to next year's event. Mark your calendars now for Friday, March 22, 2024.

In April, some club members and members of their families attended Chimp Havens' "Meet the Chimpanzees Day" and had a wonderful time watching the chimps interact. We enjoyed an excellent lunch at Crawdaddy's after our tour. If you ever have a chance to visit Chimp Haven, I strongly encourage you to do so. These animals were rescued after being used in medical research. Now they live their lives in peace.

We've accomplished a lot in a short time, and I feel like we are FINALLY recovering from the effects of COVID. Let's keep the momentum going!

Dates to remember...

*May board meeting – May 9, 5:30,
St. John Berchman Catholic School Boardroom*

*May membership meeting – May 23, 5:30,
The Petroleum Club of Shreveport*

*Community Service Project:
men's handkerchiefs / diabetic socks for Veterans Home*

Please remember and pray for those members who are experiencing medical issues at this time.

Respectfully submitted,

Bonnie Fish

2023 RRDD President

RED RIVER DESK AND DERRICK CLUB
APRIL 25, 2023
APRIL MEMBERSHIP MEETING MINUTES

The April membership meeting of the Red River Desk and Derrick Club was called to order by Missy Carroll, Immediate Past President. Bonnie Fish, President, was unable to attend this meeting so Missy Carroll stood in for her to preside over the meeting. The meeting was called to order, and it was noted that a quorum was present for both Board and Membership.

The 50/50 drawing totaled \$48. The winning ticket was held by Brandy Stroud, guest of Robert Stroud who was our speaker for the evening as well as one of our advisors. Brandy received \$24 for her 50%. Also, as a donation, the Strouds brought fresh eggs for prize tickets. Eggs went to Kevin Moore and Margie Gay.

Minutes from the March Membership meeting were presented via The Gusher. Laura Hatcher made a motion to accept the minutes as written. LaVerne Broussard seconded the motion. A unanimous vote approved the minutes to be filed.

The Treasurer's report was printed in the Gusher prior to the meeting. There were no corrections suggested, therefore the report will be filed for audit.

There was no new correspondence since the March meeting. RRDD was thanked by Dorothy Semon and Susie Baird for the beautiful get-well cards.

Our May Membership meeting will be held on Tuesday, May 23rd. The guest speaker will be Mike Moncla, President of LA Oil and Gas Association (LOGA). His topic will be The State of the Industry. Susie Baird will lead the opening invocation and pledge. Bobbie Trust will give the introduction for Mr. Moncla. LaVerne Broussard will do the write-up.

Mike Moncla's theme goes along with May being our Industry Appreciation night when we present our Scholarship Awards. Five applications were chosen based on the ADDC requirements. All students were from Louisiana Tech University. A decision was made to award the top 2 students each \$3,000 and the other 3 students \$2,000 each, with a total of \$12,000 being awarded. A motion was made by Susie Baird for the Board to accept these students and these scholarships as stated, and the motion was seconded by Arlys Milan. A vote was taken, and the Board unanimously approved this motion. Then Laura Hatcher made a motion on behalf of the membership to accept these students and these scholarships as stated, and the motion was seconded by Sheryl Cole. A vote was taken, and the Membership unanimously approved this motion.

Quick points:

- We have a total of 25 members
- The deadline for submitting to The Gusher is the 1st of each month
- The field trip to Chimp Haven was enjoyed by several members on April 15th
- There will be a field trip to Kilgore to the Oil Museum on May 6th. Attendees should meet at the Cracker Barrel on Pines Rd. at 9am to carpool
- Tonight's attendees included 11 members, 4 advisors (including our speaker Robert Stroud), and 1 guest for a total of 16
- The 2024 ADDC Convention will be held in Dallas, TX

Committee Reports:

- Activity Books – our stock will be taken to the Ag Center. ADDC will not be purchasing more for now.
- Red River Clays – we ended with a net profit of \$8,633.85. A final spreadsheet is attached

RED RIVER DESK AND DERRICK CLUB
APRIL 25, 2023
APRIL MEMBERSHIP MEETING MINUTES
continued

AIMEE awards received at the Region Meeting were as follows:

- Longevity Awards – Arlys Milan and Amy Hollenshead both for 15 years membership
- My First Day in the Oilpatch by LaVerne Broussard taking 3rd place
- What Desk & Derrick Means to Me by LaVerne Broussard taking 2nd place
- Best Large Bulletin: The Gusher Sheryl Cole, Editor 1st Place

Also from the Region meeting is a motion to combine Region Meeting and ADDC Conventions going forward. The Region meetings would be held the day before the ADDC Convention begins. This motion has been formally presented by ADDC for each club chapter to vote on and submit their results. On behalf of the Red River Club Board, Margie Steed made a motion to accept this idea as presented; Dorothy Semon seconded the motion, and a unanimous Board vote was taken and approved. On behalf of the Red River Club Membership, Margie Steed made a motion to accept this idea as presented; Laura Hatcher seconded the motion, and a unanimous Board vote was taken and approved.

There being no further business the meeting was adjourned at 7:05pm.

Respectfully submitted,

Susie Baird, 2023 RRDD Secretary

**RED RIVER DESK AND DERRICK CLUB
APRIL PROGRAM**

An Overview of the Industry

Forthcoming, Robert Stroud let us know that he tends to “cram” before the big event! We didn’t have a defined topic from our speaker prior to our meeting, but nonetheless his cramming proved no doubt that he knew his topic. The topic becoming An Overview of the Industry. And once again, Robert served the industry and his audience with optimism and light hearted humor, two traits required to be in this industry as long she has.

With all the negativity spewing at our oil and gas industry today, this listener in particular loved hearing of its beginnings and continued benefits. Starting in 400 BC (!) Robert shared how we relied on fossil fuels where Chinese accidentally encountered oil and gas seeping from the ground and actually traversed the product through bamboo. Throughout the years oil was used for heating and lighting, in addition to medicinal purposes.

The mid 1800’s brought shallow drilling from individuals and soon thereafter, small syndicates. As knowledge of the product’s benefits grew, so did education of how to produce. Auger bits and cable tools were just beginning to retrieve the product. The mid 1800’s developed products like plastics, fertilizers and more medicines making the production of fossil fuels more desirable. And in 1859 in the town of Titusville, the first production well was drilled in the United States. Towards the late 1800’s, geological studies became increasingly valuable with small corporations and trusts forming to pool resources for investing in production. One interesting note made by Robert: the industry was “green” before “green” was a thing. The production of oil from the lands meant less killing of whales!

The early 1900’s were similar but adding seismic studies, rotary bits and electric well-logging. Still, the players were individuals and syndicates with companies forming from investors. In 1901, the modern oil industry was created with the discovery of oil in Beaumont, Texas known as Spindletop. In 1938, Caddo Lake was actually considered the first offshore drilling rig because it did not have a pier connecting to land. The mid to later years of the 1900’s saw larger companies form, the education of tools for drilling, 3D seismic procedures and bumper stickers stating “if you don’t have a well, get one”!

Robert touched on current events and attitudes. As we are all very much aware, the public has forgotten the history, the purpose and the need but being an eternal optimist with his glass overflowing, Robert states his belief that our industry will prevail because there is no product like it and no replacement that covers the magnitude of benefits as fossil fuels.

And for this listener, the best comment anyone could have added was when Robert, having been an advisor since 2005, shared the value he has seen over the years coming from Desk and Derrick and its origin and purpose of educating.

May 2023

To: ADDC Membership

Regional meetings are in full swing, and I had the privilege of attending the West Region and Southeast Region meetings the past two weeks. I am currently getting ready to attend the Central Region meeting this week. Northeast Region is slated for May 17-20, 2023. You still have time to get your registration in for the Northeast Region! I will announce the 2024 ADDC Region Directors in next month's letter.

Tax time is almost here! The deadline to submit your tax form to the IRS is **May 15, 2023**. Please remember to send a copy to your Regional Representative as well.

Mark your calendars - ADDC is moving forward with the 2023 ADDC Convention, hosted by the West Region, to be held in Albuquerque, NM – **September 20-23, 2023**. The Registration Packets will be sent out in the near future. The Sandia Resort & Casino: <https://www.sandiacasino.com> will be the site of this year's convention. Room rates will be \$194 for a single, double, triple or quad. Airport Information: <https://abqsunport.com>

The Nominating Committee Chairman, Keith Atkins, has called for Nominations for Association Officers for 2024. The Nomination Forms were sent to Regional Directors, to be forwarded to Club Presidents on April 1st. Nominations for the office of President-Elect, Secretary and Treasurer are open. The deadline for Nomination forms to be returned is Friday, June 16, 2023, please email your nomination form to: keith.atkins@murphyusa.com. Nominees for any Association Office must have served as a Regional Director or have served on the Association Board. Remember – **YOUR** Association needs you!

ADDC's began its life with the Desk and Derrick Club of New Orleans, Louisiana in 1949. I took a moment to realize our organization celebrates 74 years in existence! What an accomplishment. How many other organizations can say they have been around this length of time? I feel this proves we are doing something right, we are representing our industry, an industry that is needed worldwide! Retention and Recruitment are the two words that will continue to help our organization grow, and it all starts with you. Teamwork is what is needed to see the end goal, all of us working together and doing our part to help ADDC be greater than it was last year!

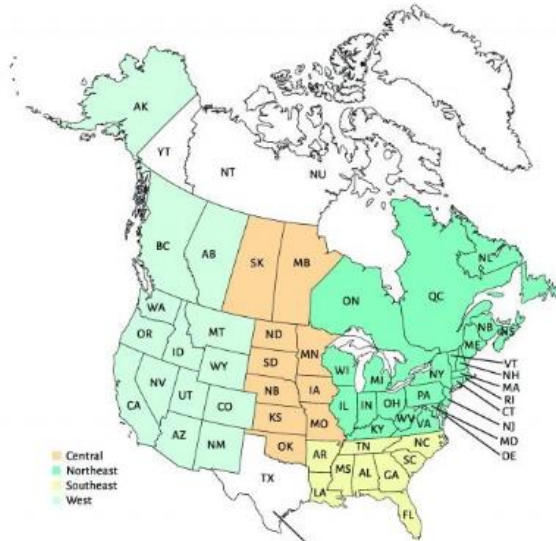

“Teamwork is the ability to work together toward a common vision. The ability to direct individual accomplishments toward organizational objectives. It is the fuel that allows common people to attain uncommon results.” — Andrew Carnegie, industrialist and philanthropist

MAY, 2023

PRESIDENT
Barbara Pappas
 Cobra Oil & Gas Corp.

My heartfelt thanks to each and every member of the Westbank Club for a very successful Region Meeting. Lots of hard work, I know, but it is in the books. There were some awesome memories that were made for sure. From having to cancel our 2020 Region Meeting was disappointing, I know, but we bounced back full steam. GAC's, Angie Duplessis & Judi Adams, with their renewed energy handled all the arrangements in a very professional manner and got the job done. I was not worried with those two at the helm. Val Blanchard, Parliamentarian, kept me going, even though I did lose my voice, Dottie Ancona, my Assistant, helped me and was always there for me. Theresa Adams, did a lot of behind the scenes and printing of the program.

PRESIDENT ELECT
Wendy Sparks
 Carl E Gungoll Exploration

Wednesday evening opened for Registration and from there it was non-stop action. Thursday morning, field trips to C and C Marine and the Westbank Foodies Tour to two popular restaurants and back to the Hotel for some delicious queen cake, with no babies in. Thursday night, I hosted a President's reception and had a good turn-out saluting the 2023 Club Presidents.

SECRETARY
Jamie Sabata
 Gardner Cryogenics

Up and early again for the Seminars, where my own husband, Randy, gave the first Seminar on "Roughnecks to the Rescue in Sherwood Forest." A very interesting presentation of a group of Oklahoma roughnecks with Noble Drilling sent to Sherwood Forest in England to help drill for oil during World War II undercover hiding out in Monasteries to replenish England's oil supply. The next seminar was our own, Barbara Pappas, who attended our Meeting, gave a presentation on "Leadership - What kind of leader are you?" Barbara did a very good job and everyone left with more knowledge of being a leader.

TREASURER
Kathy Martin
 Acadian Ambulance Service, Inc.

The President's Luncheon Meeting was held at a popular Italian Restaurant and was pleased Barbara joined us for the discussion after our delicious lunch.

IMMEDIATE PAST PRESIDENT
Philana Thompson
 Merrion Oil & Gas Corp.

Friday night was a fun night, "Beach Blanket Bunco", a good time was had by all. Nice door prizes and Bunco 1st, 2nd, & 3rd places were awarded prizes as well.

PARLIAMENTARIAN
Judi Adams

Saturday morning started up early again and a full day for sure with our Business Meeting (Congratulations to Angie Covers, 2024 Region Director-Elect), Member Recognition Luncheon (congrats to all the winners), Years of Service awards were all presented to members. The evening Banquet was a success with our Guest Speaker, Senator Sharon Hewitt who gave us a very interesting part of her life working offshore as the only female engineer and the many hurdles she had to go through. She also told us that her mother was a member of the Desk and Derrick Club of New Orleans.

CENTRAL REGION DIRECTOR
Val Williams

Lots of hard work goes into planning a Region Meeting but there is no way I can list all of those who have helped me, donated items, time, money, etc. I am forever grateful to you all and thank you from the bottom of my heart. I do want to thank Alice and Nolan for helping me move my stuff, (along with hubby), to and from my room back to my vehicle.

NORTHEAST REGION DIRECTOR
Kelli Hiltbrand
