July, 2023

Can you believe this year is already half over! The clubs have reported some very interesting and varied programs so far this year.

Some of the topics discussed were:

- Information on the history of the oil fields in the area
- Summary of the generations from Maturists, Baby Boomers, Generation X, Y and Z
- Evolution of Geology
- Wind Energy Stats
- History of downtown buildings related to oil booms
- Job site issues post Covid
- Artificial Lift
- Collection of helium gas
- Industry trends, past and present
- Safety in the workplace
- Different grades of crude oil, how and why, size of a “barrel” of oil, price ups and downs
- EAB coloring book
- Discovery of Oil in the Middle East
- Critical Infrastructure Designation by Texas RRC
- Flowers in the workplace, how to make, what to use
- Effect of wind in the oilfield
- Zebra Mussels in the oil patch
- Unit Agreements and Distribution of Revenue
- Construction of drilling site, from the road to the pad

Videos watched included:

- The Great Pacific Garbage Patch
- The Energy Question
- Mike Rowe, Dirty Jobs in Oklahoma
- The Prize
- Oil & Gas Industry Overview/Tank Battery information

If you want more information on any of these programs, give me a call or send me an email.

Remember, you must have a minimum of five (5) programs and four (4) must be industry related.

Keep sending your complete spreadsheet, PROG1, to your region representative within seven (7) working days after your meeting.

Keep up the good work!!

Audra Horton, Program Committee Chair
