and have my cowgirl hat and boots packed for the ice breaker on Friday night. My thanks to Val Williams and Pat Blanford Lonestar Club and the rest of the Central Region Clubs for all the work that has been put in to make this Convention an educational and successful event. I will be taking this beautiful King-size quilt donated by our own Katie Berg to sell tickets for our club sales. Tickets will be \$10 and these funds will be for our scholarship fund. We will also be selling tickets locally and will draw for the winner at our December Christmas Party.

On October 15, we are also going to host a Painting Party as a fundraiser for our Scholarship Fund. We are excited to be able to offer this class to the public for a fee of \$40 to paint a 14x14 canvas of the above painting, just in time for Fall! Come join us if you can!

Though the first successful oil drilling was in Titusville, Pennsylvania in 1859, the American oil boom began with a major gusher at Spindletop in 1901 near Beaumont, Texas.

The largest “conventional” [oil field](#) is Saudi Arabia’s Ghawar oil field. Containing nearly 50 billion barrels of oil, the field is able to produce 3.8 million barrels per day.

Saudi Arabia produces 8.1 million barrels of oil per day.
